

Healthy Mouth = Healthy Child

FREE DENTAL SEALANTS AND SCREENINGS

Please return a signed permission slip to use this free service.

Free sealants and dental screenings are offered at your child's school. A dental screening is a quick look inside your child's mouth to check the overall health of their teeth.

- ☞ Healthy teeth are important to your overall health
- ☞ When dental sealants are done in school, you miss less work and your child misses less school
- ☞ Dental sealants are done by dental care professionals
- ☞ See your dentist at least once a year

Before

After

The Problem: Cavities

- Cavities are the most common chronic childhood disease
- About 1 of 5 (20%) children aged 5 to 11 years have at least one cavity

The Solution: Dental Sealants

- Dental sealants are protective coatings put on the back teeth
- Sealants are a quick and easy way to prevent cavities
